

## REQUEST FOR COUNCIL ACTION

---

**MEETING DATE:** October 2, 2023

**PREPARED BY:** John Hagen, P.E., PTOE, Transportation Operations Engineer

**AGENDA ITEM:** Resolution of support for funding TH 169 - Elm Creek Boulevard  
Resolution No. 23-146

---

### PREVIOUS ACTIONS:

Council, at their August 21, 2017 meeting, adopted Resolution No. 17-105 indicating support for the TH 169/Elm Creek Boulevard (CSAH 130) Project, and directed staff to complete the necessary updates to the interstate access request, environmental documents, and pursue necessary funding to complete the interchange reconstruction project.

At their March 21, 2022 meeting, Council adopted Resolution No. 22-056, indicating support of the city's application for funding through the Metropolitan Council's 2022 regional solicitation program.

---

### RECOMMENDED COUNCIL ACTION:

Motion to adopt Resolution No. 23-146, a resolution in support of the city's application for funding through the MnDOT's 2023 Minnesota highway freight program.

---

### COMMENTS:

#### Introduction/Recommendation

The city has been pursuing various funding sources for the reconstruction of the TH 169/Elm Creek Boulevard (CSAH 130) interchange since 2009. Most recently, the city was successful in securing \$7 million in funding from the Metropolitan Council's regional solicitation program in 2022. The attached resolution is required for the city to apply for MnDOT's 2023 Minnesota highway freight program (MHFP).

#### Background

For almost four decades, the City of Maple Grove has been in the process of planning development of the nearly 2,000-acre area known as the gravel mining area (GMA). The GMA is generally located in the northwest quadrant of I-94 and TH 169. This area is served by two regional interchanges: I-94 / Hemlock Lane and TH 169 / Elm Creek Road (CSAH 130). The TH 169 and Elm Creek Boulevard (CSAH 130) interchange is located along the east side, with Elm Creek Boulevard playing an important role as an east-west transportation corridor extending through the GMA. To address existing area

operational issues and accommodate new development, the city is planning for the continued transformation of the area, which includes the proposed interchange improvements.

In order to complete the interchange modifications, the City of Maple Grove is working with Hennepin County and MnDOT to complete the necessary updates to the interstate access request, environmental documents, and secure the necessary funding. The total costs for these improvements are estimated at \$19.3 million. As with many future transportation projects, funding remains the largest hurdle to completing the TH 169/Elm Creek Boulevard (CSAH 130) interchange project. To help close the funding gap, city staff plans to pursue MnDOT's 2023 MHFP funding later this month. If we are successful in receiving the \$10 million funding through the 2023 MHFP, the City of Maple along with their local partners (Hennepin County and MnDOT) will need to be able to commit to the remaining \$2.3 million funding as part of the required local match.

It is recommended that the Council adopt Resolution No. 23-146 indicating support of the city's application for funding of the TH 169/Elm Creek Boulevard (CSAH 130) project through MnDOT's 2023 Minnesota highway freight program.
